Fuel Consumption Reports

Fuel Tracking · https://arba.app/userguide/fuel_reports/

Regardless of the method of entering data on refueling and charging, the results in the reports will be the same.

If you use the optimal method, then make sure that there are at least 1-2 mileage updates per month.

In the Reports tab, you will find a dashboard that shows all the key indicators for the current month. Here are the indicators for each type of fuel, from among those configured for this vehicle:

- Total fuel cost
- Fuel cost per month

Click on the line with the type of fuel and navigate to the charts, where you can see the following indicators by month:

- Fuel/energy costs
- Cost of km (mile)
- Fuel price
- Total fuel/energy consumed

For vehicles with internal combustion engines (Worldwide, except USA):

- Fuel efficiency, km / litre
- Fuel consumption litres / 100 km
- US MPG (km / litres converted to miles per gallon)

For vehicles with internal combustion engines (USA):

- US MPG (miles per gallon)
- Fuel consumption (gallons / mile)

Electric vehicles (Worldwide, except USA):

- Energy efficiency (km / kWh)
- US MPGe - MPG equivalent for electric vehicles
- Average energy consumption per mile

Electric cars (US):

- Energy efficiency (km / kWh)
- US MPGe - MPG equivalent for electric vehicles

Find out what analysis tools are available to you on charts in the ARBA Auto app.
