# Support The Project

Getting Started · https://arba.app/userguide/support_project/

If you like what we do, write a review in the AppStore and Google Play. We really appreciate it!

You can also support the project by adding cars and purchasing paid extensions for them. These cars (with the Premium extension activated) can be transferred, sold and gifted. There are people who, for whatever reason, cannot afford to buy paid extensions. You can offer a “charged” car as a gift on Telegram.
